Education

University of California, Riverside Extension Program (UCR)
- Certified **Web Developer**

February 2022

University of California, Los Angeles (UCLA)
- Bachelors Degree in **Political Science**

June 2021

Languages

- English, Spanish

Experience

In-N-Out Burger

Riverside, CA & Los Angeles, CA (2017- 2019)

February 2016 - Current

Web Development

- Analyzed and studied with different people to work with different NPM packages to create a project that generates NFT's. Packages like **HardHat**, **Openzeppelin**, **Pinata**, and **Ethers.JS**. Link to the GitHub Repo. <https://bit.ly/3IjUmDe>
- Ability to conduct efficient **CSS** stylesheets that provide a presentable website/code for viewers by creating portfolios that are neat to viewers and by consistently updating the CSS code alongside it.
- Working with **Node**, **OOP**, and **Express** to develop material in **JavaScript** such as creating a team-profile generator that allows the user to input results on a command line which then generates an HTML page with descriptions of the employees. Link to the Repo. <https://bit.ly/3dlCaul>
- Incorporating **APIs** to create web pages, such as a cocktail page that randomizes a beverage all while the API pushes out a certain drink for the new website.
- Collaborated with classmates to create a program that has a clean CSS layout and Javascript that allows users to decide what new objective they would like to learn. This Project was given the name "Today I learned." The link to the GitHub repo is here. <https://bit.ly/3DjTzi5>

Web Skills

- **React**, **Bootstrap**, **MySQL**, **OOP**, **ORM**, **Node.js**, and **GitHub**.

Languages

- **JavaScript**

Customer Service Associate

- Collaborated with different managers from different stores to provide the best assistance on daily tasks such as handling thousands of dollars in transactions, multitasking in taking orders, and assisting customers' needs.
- Directed the safety of 50 associates in the store by making sure everyone is following the proper safety measures.
- Reviewed product percentages and collaborated with managers to increase store efficiency to reach our sales goal of 100% while ensuring the best possible service with customers.
